Our 3's classes are here to introduce children to an organized school setting in a safe, nurturing, and fun environment. Students will learn, work, and play in both individual and groups settings. Teachers help guide students as they learn to navigate friendships and playing with others.

The curriculum at Bradley Preschool is shaped by the Indiana Early Learning Foundations. The foundations are a collection of continuums that were created by the state of Indiana to be utilized by teachers, parents, and caregivers as they guide children through the progression of their development from birth through kindergarten. Bradley Preschool students begin in the 3's and 4's classes by working with the "Younger Preschool" foundations and then move on to the pre-k classes that work with the "Older Preschool" foundations as they prepare to enter kindergarten.

The 3's classes give an introduction of colors, shapes, numbers, and letters, as well as working on developing scissor skills, correct pencil grip, and pre-writing skills. Students also begin to understand classroom rules and expectations such as sitting still and listening during story time, walking in a line, hand washing, bathroom etiquette, and using inside voices.

Description:

At Bradley Preschool, we like to offer this unique class option to parents of children that fit the specific age requirement as we recognize the differences between young 3-year-olds and 3-year-olds that are about to turn 4. While the 4's class' days and times are on track with the pre-k classes', the curriculum and overall purpose of the 4's class aligns with the 3's.

For most students in the 4's class, this will be the first time they have been in an organized school setting. We are here to introduce children to an organized school setting in a safe, nurturing, and fun environment. Students will learn, work, and play in both individual and groups settings. Teachers help guide students as they learn to navigate friendships and playing with others.

4's class addresses the same standards and skills as the 3's classes, due to their older age, we are prepared to move with the 4's students at a faster pace with slightly more advanced activities than the 3's classes, if they show readiness to do so.

The 4's class gives a more in-depth introduction of colors, shapes, numbers, and letters, as well as working on developing scissor skills, correct pencil grip, and pre-writing skills.
